

REMARKS/ARGUMENTS

Applicants request the Examiner to consider the present amendment in the context of the first Examination. Support for "basis weight" is found throughout the original specification, particularly at page 5 (lines 9-20). Claims 3, 4 and 12 have been amended by modifying the basis weight ratio. Support is found at page 6 (line 4) reciting "about 2:1".

Applicants look forward to the first Office Action at the Examiner's earliest convenience.

Respectfully submitted,
